20th ANNIVERSARY CONFERENCE SEPT 7-9, 2016

BELTERRA CONFERENCE
CENTER
FLORENCE, INDIANA

Floodplain and Stormwater Managers

The Indiana Association for Floodplain and Stormwater Management (INAFSM) is *THE* professional organization that focuses on providing on-going training, collaboration, support, and materials to floodplain and stormwater managers working in the State of Indiana. Its annual conference offers professionals the opportunity to learn from and collaborate with both nationally recognized and Indiana professionals and regulators to improve themselves and their industry. It offers attendees CEUs and PDHs for a variety of professional certifications including PE, CFM, MS4, CESWI, and more. Hours for PLS are in progress.

The organization was founded in 1996 by professionals interested in and responsible for floodplain and stormwater management in the State of Indiana. INAFSM members include federal, state, and local agency staff, engineers, consultants, planners, elected officials, members of academia, students, and floodplain residents.

PLENARY SPEAKER: Harriet Festing

Harriet Festing is the Director of the Water Program and RainReady at the Center for Neighborhood Technology (CNT) in Chicago, IL. She directs CNT's work on urban flooding, integrated water management and community resiliency. She will be speaking on a Suburb That's Reinventing Resilience and also providing insight into whether we are adequately mapping our flood risks. She has a Bachelor of Science in Horticulture and Master of Science in Business Economics, both from the University of London. She is a strong believer in the power of — and need for — citizens to shape their future through community organizing.

Early Bird Special

Register by April 1st and be entered for an early bird prize.
See web-site for details

KEYNOTE SPEAKER

Tom Ballestero, Ph. D, PE

Dr. Tom Ballestero is the Director of the Stormwater Center at the University of New Hampshire. He is also a commissioner for the New England Interstate Water Pollution Control Commission. Dr. Ballestero has 4 decades of experience in water resources issues including: hydrology, water supply, stream restoration, stormwater management, remediation of contaminated sites, and coastal engineering. He will be speaking on Watershed Restoration, Gravel Wetlands, Winter Maintenance of Green Infrastructure BMPs, & a Culvert Design Project to facilitate aquatic organism passage.
